A polished explosion of provocative, thoughtful and violent reactions to life in post-9/11 america. 11 MP3 Songs ELECTRONIC: Industrial, ELECTRONIC: Electro Show all album songs: Reptile Songs Details: GASR are back, with their stunning sophomore release! Imagine 'Survival of the Fittest' amped up, polished and mixed with heavy doses of political angst. A polemic with teeth, the album steps away from the sunny themes found on their debut, opting instead for an even gloomier, uncomfortably intimate record meant as a provocative, thoughtful and violent reaction to life in post-9/11 America. Once again, they combine elements of dark Electro, Industrial, and even hints of harsh EBM without sacrificing melody. For fans of Skinny Puppy, Flesh Field, Tear Garden, and NIN.
