Latin, Jazz, and acoustic rock/metal in a room of cheesefingers. 10 MP3 Songs in this album (36:08) !

Related styles: NEW AGE: Progressive Alternative, JAZZ: Latin Jazz People who are interested in Incubus Jack Johnson Dave Matthews should consider this download. Details: The first half of this album was recorded in M.T. Bodines studio in Richardson, Tx. All instruments were played and recorded at the same time..... The Djembe, the vocals and the guitar. The only track that has any post production embellishments is "hotel". a lead was added in the background Starting from track 6-9 are more recent recordings and all the instruments were recorded separate. Track 10 was done at my old drummers house around the same time of the first five recordings.....sometime in 2004. I've been told that all the songs are great. I've been told that the first five even after 4 years, are still listened to and enjoyed. Give them an honest listening and I promise they will be a part of your musical library for the rest of your life!
