Details: Alone is Lokeks debut album which is released by Inner Ear. It is an album full of melancholic melodies and nostalgic atmosphere, which is led by the guitar. The lyrics set a scene of mixed feelings and blend with his deep, low-pitched voice, which it also sounds assertive. Alone is the portrait of a world which spins around the damnation and redemption through gauzy and romantic vales (A Valse of True Romance), folk rhythms (I Went to the Beach Alone), lo-fi style (River of diseases), slow ballads (Now Cry) and electric melodies (These guns). Lolek handles adequately the power of guitar and his haunting voice combined with simple orchestration and he is featured in a great singer-songwriter. The minimalism, the unassuming performance, the lyricism, the dullness and the undertone are the elements of this new-romantic debut album. The album has been produced by Lolek and Callmelazy and its been mastered by Greg Calbi, famous for his collaboration with John Lennon, David Bowie, Paul Simon, Interpol, MGMT and many others. The Boy, furthermore, plays the piano (Since I am a soldier, Oh mama) and does backing vocals (I went to the beach alone). Loleks debut album creates a personal and especial ambience, which demonstrates his temperamental nature. Music, without enigmas and odd forms, explicitly comes across as an honest assessment of its creator.
