Gospel meets R&B for a new groove with a fresh message. 11 MP3 Songs GOSPEL: Contemporary Gospel, URBAN/R&B: Contemporary urban Details: In early 1998 a group of men came together and began discussing new ways of encouraging men within the church body to experience a deeper, closer relationship with God. Men of Abundance [MOA] was born from that discussion and in the spring of 1998 at Abundant Life Christian Fellowship, the group began ministering to the congregation in song. Since then, God has moved mightily to allow MOA to minister to and encourage the body of believers and not-yet-believers through various engagements throughout the San Francisco Bay Area. In every instance, God has proven Himself to be faithful in using the gifts of MOA to bring the gospel to those whom He has placed in front of them. Now, through the release of the CD "No Ordinary Man", the members of Men of Abundance combine the message of the Gospel with an urban groove that the whole family can listen to and enjoy. The members of the group are Gary Clemons, Michael Davidson, Clifton Paige, Fa'aliliu 'Junior' Tagata and Jerald Williams.
