Moody, haunting, psychedelic folk rock 15 MP3 Songs ROCK: Psychedelic, FOLK: Folk Pop Details: songwriter / producer / recordist / rocker / folker / accountant Mike Coykendall has put out over 15 albums of all original music since 1986. Starting with Kansas psych-trio Klyde Konnor through San Francisco's Old Joe Clarks and their haunting Americana chamber music. Coykendall continues to mix and evolve into new territory and now presents perhaps his most adventurous record to date "hello hello hello." Playing the majority of the instruments himself and recording it in his home studio on the off days between working with other artists such as M. Ward, Tin Hat Trio, Beth Orton, etc. "hello hello hello" is the work of an obsessed, hap-hazard, perfectionist at the end of his rope. Care to dangle?
