Ozny's new Countdown project. Tracks in 9/8 7/8 6/8 5/4 3/4 2/2 and 1 0? 8 MP3 Songs ELECTRONIC: Experimental, ELECTRONIC: Ambient Details: Available for a Limited Time Only! This CD is extremely original! Very dark, very dirty. Perhaps too dirty? You be the judge. The concept of COUNTDOWN is the descent through the time signatures: 9/8, 7/8, 6/8, 5/4, 3/4, 2/2, and a 1-minute 1-hit big bang that leads down to the hidden "Zer0" track. Zer0 is a "timeless experiment", not meaning that it will go down in history, rather meaning that it follows absolutely no time signature or tempo, but somehow, this live set still carries some sort of rhythm! If you have a taste for Glitching, over-the-top compression, lo-fi, odd timing and overdriving, you just might like this!
