This uniquely funky group based in Tokyo JAPAN is making its name know throughout the world as their popularity grows. Within the first year theyve completed this debut album disfunktionfire. Fat basslines and funky beats are complimented by Toddys M-singing (singing/rapping) style. The 10 tracks are mostly funk based but theres definitely some blues, rock, soul and reggae influences taking place during tracks like the inspirational People Get Together and the ballad Stay With Me Tonight. Jazz like solos highlight the talents of many of Tokyos up and coming musicians foreign and local. Guest Keyboardist Sean Tait also appears on several tracks. disfunktionfire was Engineered and mixed by Ken Nishi (aka, The Spanish Giant). Supervised by some of funks greatest players and wise minds around the globe, its obvious that these guys are on theyre way to becoming legends of their own. Toddy is quoted as saying in Japan Scope magazine May 2007 issue, as far as Im concerned were going to be the first mixed race band to break out of Japan.
