

# Modern Differential Geometry In Gauge Theories

[DOWNLOAD HERE](#)

1;Contents;6 2;General Preface;9 3;Preface to Volume II;11 4;Acknowledgments;14 5;Contents of Volume I;17 6;Yang Mills Theory:General Theory;18 6.1;Abstract Yang Mills Theory;19 6.1.1;1 The Differential Setting;19 6.1.1.1;1.1 Vectorization of the Abstract de Rham Complex (Prolongations);21 6.1.2;2 The Dual Differential Setting;23 6.1.2.1;2.1 Dual Differential Operators;26 6.1.3;3 The Abstract Laplace Beltrami Operators;32 6.1.3.1;3.1 Positivity of the Laplacian and the Green's Formula;35 6.1.4;4 The Abstract Yang Mills Equations;38 6.1.4.1;4.1 Yang Mills Fields;40 6.1.4.2;4.2 The Yang Mills Category;42 6.1.4.3;4.3 Gauge Equivalent Yang Mills Fields;45 6.1.4.4;4.4 Yang Mills Equations;50 6.1.4.5;4.5 Self-Dual Gauge Fields;53 6.1.5;5 Yang Mills Functional;57 6.1.5.1;5.1 Group of Gauge Transformations;60 6.1.5.2;5.2 Gauge Invariance of the Yang Mills Functional;63 6.1.6;6 First Variational Formula;65 6.1.6.1;6.1 Variation of the Field Strength, Caused by a Variation of the Gauge Potential;67 6.1.6.2;6.2 Covariant Differential Operators (Prolongations) for EndE;71 6.1.7;7 Volume Element;74 6.1.7.1;7.1 A Topological (C-)-Algebra (Structure) sheafA;78 6.1.8;8 Yang Mills Functional (continued): The Variation Formula;81 6.1.8.1;8.1 Lagrangian Density and Its Variation;84 6.1.9;9 Cohomological Classification of Yang Mills Fields;86 6.1.9.1;9.1 Local Characterization of Yang Mills Fields;89 6.1.9.2;9.2 The Map (9.1);92 6.2;Moduli Spaces of A-Connections of Yang Mills Fields;94 6.2.1;1 Preliminaries: The Group of Gauge Transformations or Group of Internal Symmetries;94 6.2.1.1;1.1 The Internal Symmetry Group, as the Group of Gauge Transformations;99 6.2.2;2 Moduli Space of A-Connections;102 6.2.2.1;2.1 The Orbit Space of A-Connections;107 6.2.2.2;2.2 The Orbit Space of a Maxwell Field;111 6.2.3;3 Moduli Space of A-Connections of a Yang Mills Field;112 6.2.3.1;3.1 Moduli Space of Yang Mills A-Connections;113 6.2.4;4 Moduli Space of Self-Dual A-Connections;115 6.2.5;5 Quantized Moduli Spaces;117 6.2.5.1;5.1 Morita Equivalence, as Applied to Second Quantization;121 6.3;Geometry of Yang Mills A-Connections;123 6.3.1;1 Abstract Differential-Geometric Jargon in the Moduli Space of A-Connections;124 6.3.2;2 Tangent Spaces;129 6.3.3;3 Geometrical Meaning of  $T(\text{Conn}A(E), D)$ ;130 6.3.4;4  $O_1(\text{End } E)$ , as a Topological (C-)-Vector Space Sheaf;138 6.3.4.1;4.1 Vector Sheaves, Locally Topological Modules;140 6.3.5;5 Geometric Meaning of  $T(\text{Conn}A(E), D)$

(continued);142 6.3.6;6 Tangent Space of the Orbit of an A-Connection,  $T(OD, D)$ ;144 6.3.7;7 The Moduli Space of A-Connections as an Affine Space. Gribov's Ambiguity (à la Singer);148 7;General Relativity;154 7.1;General Relativity, as a Gauge Theory. Singularities;155 7.1.1;1 Abstract Differential-Geometric Setup;157 7.1.1.1;1.1 Curvature Operators;159 7.1.1.2;1.2 Scalar Curvature;164 7.1.1.3;1.3 Semi-Riemannian A-Modules;171 7.1.2;2 Lorentz A-Metrics;172 7.1.2.1;2.1 Lorentz A-Modules;174 7.1.2.2;2.2 Lorentz Yang Mills Fields;177 7.1.3;3 Einstein Field Equations;182 7.1.3.1;3.1 The Classical Counterpart;185 7.1.3.2;3.2 Einstein Algebra Sheaves;186 7.1.3.3;3.3 Einstein Riemannian Algebra Sheaves;187 7.1.4;4 Einstein Hilbert Functional and Its First Variation;189 7.1.4.1;4.1 First Variational Formula of the Einstein Hilbert Functional;189 7.1.5;5 Rosinger's Algebra Sheaf;192 7.1.5.1;5.1 Basic Definitions;193 7.1.5.2;5.2 The Differential Triad, Based on Rosinger's Algebra Sheaf;196 7.1.5.3;5.3 And-Metrics;200 7.1.5.4;5.4 And as a Topological Algebra Sheaf. Radon-Like Measures;201 7.1.6;6 Rosinger's Algebra Sheaf (continued): Multifoam Algebra Sheaves;202 7.1.6.1;6.2 A Differential Triad Related to Rosinger's Multifoam Algebra Sheaf;205 7.1.7;7 Singularities;206 7.1.8;8 Eddington Finkelstein Coordinates;210 7.1.9;9 Singularities (continued);211 7.1.9.1;9.1 Singularities of the Metric;212 7.1.10;10 Quantum Gravity;213 7.1.11;11 Final Remark;2 EAN/ISBN : 9780817646349 Publisher(s): Birkhäuser Discussed keywords: Differenzialgeometrie, Quantenfeldtheorie Format: ePub/PDF Author(s): Mallios, Anastasios
