A unique Celtic folk recording using traditional and not-so-traditional instruments and styles from three different artists-plus a few surprises. 15 MP3 Songs WORLD: Celtic, FOLK: Traditional Folk Details: This is a totally unique recording. Three separate acts from two countries combined to make this cd. This is not a compilation; the tracks incorporate the talents of different members of each group to make totally new renditions of new or existing pieces of music. The recording was made the week after a joint concert in Portland OR in April of 2002. Enjoy!
