Crushpile's debut album. 5 songs of heavy hitting, in-your-face innovation and power. 5 MP3 Songs  
ROCK: Hard Rock, METAL: Metalcore Details: Crushpile is a heavy band based out of Sussex County, New Jersey. We are a hard hitting, in your face, crunchy groovin' outfit with influences that include hardcore, metal, punk and funk. We are a tight knit group as well; and regard our fellow members and fans as a part of the Crushpile family. We are making waves on the East Coast right now and this CD is doing well in local retail stores and has received rave reviews on the internet. Our songs reflect strong emotions and they don't hold back at all. All instruments and vocals are performed with conviction. Even though we are dead serious about our music; our live shows are fun and unpredictable; encouraging lots of audience participation. We are song writing monsters; always coming up with bigger and better things; so let this album be the first in your long line of future Crushpile releases.
