Soul, R&B, Funk, and a lotta LOVE 15 MP3 Songs URBAN/R&B: R&B Pop Crossover, URBAN/R&B: Contemporary urban Details: This is definitely a Homegrown, No special effects album for people who want to hear something, a little different, somewhat new, and/or thats reminiscent of music already admired by many. In this album youll hear, Earth, Wind, Fire, Cameo, Prince, Jesse Johnson, Babyface, Sly Stone, Jimi Hendrix, Funk, Soul, Gospel and many other artist styles Ive been strongly influenced by over the years. Thats the reason the title Memoirs Of DMenace StahrTM was chosen. Cuz like a book of memoirs there are accounts of personal (and musical) experiences of the author. The name DMenace StahrTM, although I didnt realize it at 1st, was truly inspired by my grandmother who once predicted years ago that I would become some type of preacher or speaker. The name had gone through some changes being that it was just a concept . But once I figured it out , it struck me what my grandmother predicted. This is a conversation with those, especially women, who are fed up with the monotony. At times, you get tired of riding the same ride, taking the same route, seeing the same people, saying the same thing, hearing the same thing, being under appreciated, earning as much respect as possible and finding out you STILL havent earned enough. Youre fed up with trying to get that one m#\$#n person to JUST ONCE, see it your way when all they have to say is, Im feelin ya. This is what I define as Lifes Holiday and much props and respect to Maurice White and Earth Wind Fire for the inspiration. I didnt want to do a predictable album. Call myself bringing something back to the table for those whove been missing that something in their music,HEART. A lot of heart, fun, and love went into this project and I hope I can move a few of ya with my music. Thanks for checking it out. Gary B. Perez A.K.A DMenace StahrTM
