14 Guitar Instrumental Beatles Hits. From the first musician to portray "George Harrison" in The Original Cast Of Beatlemania. Special Guest Nokie Edwards of The Ventures. 14 MP3 Songs POP: Beatles-pop, ROCK: Instrumental Rock Details: Les Fradkin has the singular distinction of having been the first musician to portray "George Harrison" in the Original Cast Of the Broadway production of "Beatlemania." Chosen from over 2000 guitarists back in 1976, Les starred in the smash Broadway musical which ran for over 2 years and has toured all over the world. Now, Les brings you 14 Guitar Instrumentals in a musical tribute to The Beatles. The CD offers 8 Lennon-McCartney tunes and 6 George Harrison compositions. And for Ventures fans, Nokie Edwards participates as a guest guitarist. Les is offering something new and original here while keeping one foot in traditional Beatles sound and production values. In particular, his stunning guitar duel, re-creating the "Abbey Road" "Golden Slumbers", "Carry That Weight" and "The End" Medley is a must hear. His touching acoustic tribute to George on "While My Guitar Gently Weeps" takes the Harrison standard into new territory. "I Feel Fine" recalls The Ventures treatment back in 1965. "While My Guitar Only Plays" is now featured on "Breakfast With The Beatles" (99.5-The Mountain, Denver, CO.) and on Joe Johnson's "Beatlebrunch" Radio Show across the USA! Beatles with virtuoso guitar. Hear this today.
