When they made their debut with an enticing track called Fools and Come on Dont Be Shy, the pair offered a wholesome blend of influences ranging from ambient, trance to house; offering a fusion of sorts. When VIBGYOR was released, the album came as a surprise when it was recognized as the Best Local Dance Album. Offering a touch of tradition with the hearty sounds of percussions and the upbeat buzz of today's beats, their venture into electronic music had made quite an impact. The sounds they produced got you to the groove. The duo draws heavily on soul and ambient sounds. Looking to satisfy those who look for the eccentricity of sound when grooving to a tune, THC certainly did a fantastic job. Having made their mark; creating bursts of explosions with every new sound, THC is here to stay.
