Acoustic rock for kids and the grownups who love them. 13 MP3 Songs KIDS/FAMILY: Children's Pop, KIDS/FAMILY: General Children's Music Show all album songs: That Baby CD Songs Details: That Baby DVD is a groundbreaking DVD full of fun music and visuals for kids age 0-5. Rather than relying on the old nursery rhymes or music box tones of other kids' videos, this one really rocks. We've taken great songs--songs that you may have sung at camp or put on a mix tape in your youth--and reworked them with fantastic new acoustic and vocal arrangements. The music is performed by Stephanie Schneiderman, a phenomenal singer/songwriter from Portland. She's joined on many of the songs by her sisters, Lisa and Kim, and a variety of other musicians from the thriving Portland music scene. Together, they create soothing melodies and soaring harmonies that both you and the kids in your life will love. That Baby DVD and That Baby CD are products of OyBaby LLC, a mom and pop company (literally!) from Mercer Island, WA. Our policies our simple: * You will love our products or we will give you your money back * If your discs get scratched, stepped on, dropped under the car seat, or smeared with peanut butter, we'll replace them, free of charge.
