Script Php Dynamic Poll

[DOWNLOAD HERE](#)

Dynamic Poll does exactly what it says in the title - it is a poll that changes dynamically. Ever wondered how websites can display poll questions one minute then once you have voted display the results in the same place? Well... this script does just that. Complete with full Admin Interface the Dynamic Poll is a must have for all websites! It is a poll that changes dynamically. Poll Inclusion - Poll inclusion will allow you to hold polls without closing them. If you select to include a poll, it will show up in your webpage, if you choose not to include the poll, it will not be available to users to vote on. This is a good feature if you have an idea for a poll but are not ready to make it public. Automatic Archive - Ever wanted your poll to end at exactly 1000 votes? This feature will let you do just that. It will even let you specify a time to end the poll, for example, if you wanted your poll to end on the first of the next month, you would simply select the date from a calendar and the poll will end on that date!. Poll Comments - Sometimes you may feel

that a poll you are running deserves a Click here to add a comment feature. This feature would give voters the oppertunity to justify their vote, for example, if the poll was a simple Yes or No answer, the voter could then be asked to add a comment. This option can be turned off or on in the configuration file. =========================== Marketing Find new E-books in: zahniser.tradebit.com ===========================
