Guitarist H. Attila Jelinek plays a broad range of music ranging from instrumental guitar tracks to Pop tunes. On his 11 song CD "Guitar Light" he plays guitar, keyboards, bass, and drums, along with producing, and mastering the CD. Guitar Nine Magazine wrote -Jelinek features his guitar playing in some fashion on every cut, something you don't hear in a lot of contemporary, radio-styled tunes. A lot of the instrumental music would fit perfectly as soundtrack music, for film or television - it's got that evocative feel that would suit dramatic or suspenseful material well. Jelinek's also got a really smooth electric guitar style that listeners should find appealing. A child of the 60's, Jelinek comes from a musical family and at age eight began playing the clarinet. Within a couple of years he became a member of an orchestra, and quickly became competent with the guitar and at sixteen played his very first gig, in a small garage. Since then, he's studied classical guitar, attending workshops and seminars, teaching classes, and indulging in various musical projects. Since 2000 he has composed original music, including integrating the keyboard into his repertoire. Take a listen to his music for the diverse range of sounds, from dance, to downtempo, to all out classic guitar playing. xGuitarlight is a one man music project from Germany - all Guitar, Keyboards, Bass, Drums, Producing Mastering by Attila Jelinek
