

Mp3 Bob Russell - Watch This!

Modern jazz guitar - for people who love Charlie Parker AND Jimi Hendrix. 9 MP3 Songs JAZZ: Jazz Fusion, JAZZ: Traditional Jazz Combo Details: Bob Russell's music has been described as sounding like Jeff Beck, Pat Martino, Pat Metheny, John Scofield, Larry Carlton, and Jim Hall. Obviously, that's impossible. But it does sound like Bob Russell. A guitarist for forty years, Russell has heard and admired a lot of guitar playing on both jazz and rock fronts. The music on Watch This! reflects that diversity. Clear, singing jazz sounds, warm nylon-string acoustic guitar work, high-gain rock tones - all these elements are present. The music is harmonically quite rich at times, but no "concept" is ever allowed to take precedence over the songs themselves. Is it jazz? Is it rock? Fusion? "I don't care!", says Bob Russell. "It's just guitar music, made the way I want to hear it. I think of it as modern jazz guitar. You can call it what you like. I hope you'll enjoy it!"
