

Mp3 Ferocious Daisies - Pop: Beatles-pop

[DOWNLOAD HERE](#)

3 piece band that cranks out melodic, power pop. Sort of like Crowded House meets Joe Jackson at a love-in. 7 MP3 Songs POP: Beatles-pop, POP: Power Pop Details: Once upon a time music was made like this. Really - I read it somewhere so it must be so. It works like this: 3 guys write a batch of songs and mold them in front of audiences in sweaty little clubs. Then these 3 guys spend a day stuck in a small room in a recording studio laying down the basic tracks live. Overdubs and mixing are done the following day and that's it. Back to the sweaty little clubs to hawk your shiny disks. This Ferocious Daisies CD is an example of what you kids might call "doing it old school". Thanks to the expert assistance of Producer/Engineer Ken Van Druten (who has worked with everyone from Everclear to the Rolling Stones) there's a nice sparkling finish to these little pop gems. Enjoy it with someone you love -- or while plotting revenge against someone you USED to love. REVIEW: "This three piece from Orange County actually plays music that sounds nothing like Ska Punk. Their refreshing pop intelligence shines through on matured Power Pop. Their songs are brewed from the old, 'less-is-more' recipe, which works perfectly with their unpretentious, good-time, music." - Eric Shea, LISTEN.COM FEROCIOUS DAISIES ARE: John Hoskinson - Vocals, Guitars; Joe Mazzarella - Bass, Vocals; Old Man Gillespie played drums and told many Paul McCartney stories.
