[DOWNLOAD HERE](#)

Electronic music that mixes up IDM with techno, trance, and jazz. 13 MP3 Songs ELECTRONIC: Techno, ELECTRONIC: Trance Details: Inphal is a one-man studio project that publishes original compositions in a variety of styles. Since this particular man does not do music for a living, it affords him an unprecedented artistic freedom - from blues and jazz to neo-classical and dance/DJ. Your feedback will be greatly appreciated: you can leave it here for public view or submit it on the artist's site privately. The "Piano Goo" is a third published album from Inphal and it is also characteristically eclectic. Most of the compositions are in electronic and DJ styles with strong jazz influences, but a couple of purely acoustic tunes are also present. Two previous albums are available for download free of charge from the artist's web-site.
