Warrens ability to play the lead shines on every song, while Mitchells voice speaks from the heart. The songs represent the contrast between loving and losing, fighting for what you believe in, and knowing when enough should be enough. It was recorded in Kennesaw, Georgia at Cock of the Walk Studio with brilliant Grammy nominated Producer/Engineer/Mixer Jeff Tomei (of Rockit Productions). Session veteran drummer Mike Froedge effortlessly used his skills to complete the tone and mood of the record.
