This is one of those Christmas albums that simply makes you feel...good. It alternates between sweet acoustic tracks, inventive Christmas originals, and heartfelt renditions of the classics we all know and love. In this age of over-produced and blandly commercialized media, Jolie Vigen stands out as an artist who knows how to connect with her heart - and in doing so, connects with ours as well. Joseph Itaya, Tempered Entertainment, Los Angeles Jolie Vigen's Another December is a wonderful blend of traditional songs and clever originals, performed by a truly gifted singer. Featuring outstanding guitar work by Greg Fulton, this album is a cozy and enjoyable listen. Hummie Mann, Seattle, WA ... I just wanted to let you know that I LOVE LOVE LOVE the CD... Have Yourself a Merry Little Christmas is BEAUTIFUL, it is on my ipod already with Ella Fitzgerald's Have Yourself a Merry Little Christmas (my OLD favorite version of the song) your version is my new favorite Amber, Seattle, WA On occasion, an album calls out to me...I just knew that there was something extra-special about this CD. And I was right Vigen's gentle pop/jazz gem is a glorious, easy-listening delight...More, please! Eh bien, Jolie Vigen, your Another December is jolie indeed! Carol Swanson, 2006 Christmas Reviews One of my top picks is Jolie Vigen's, Another December. In addition to a fine voice, the CD's highlights include Vigen's own songs, plus strongly simpatico support from instrumentalist Greg Fulton...her renditions and arrangements are so unusual and her singing so soulful that she too is a female fave.
