Kiarash sings from the bottom of his heart in this album. And according to a Persian saying, anything that comes from the heart goes deep inside of another. 16 MP3 Songs POP: with Electronic Production, POP: Party Pop Details: About a year ago, Kiarash's computer was stolen and all his songs that were on the hard drive of the stolen computer were illegally copied and sold in Tehran underground music market. One of the songs, known as Hasrat, became very popular in Tehran's underground music world, but everyone thought that the singer is the son of the great pop legend, Siavash Ghomayshi and Kiarash, unwillingly, became popular as Kiarash Ghomayshi. Our A&R people had been looking for Kiarash for a while, but there was no way to find him, until one day Kiarash himself called our office and asked that if we might be interested in distributing his album in the U.S. and now it is our great pleasure to deliver his music to those who had been waiting to hear all of his songs.
