From metal grinders and video effects to their intense light show and cage dancers, they round out the performance to make the stage show look as big as the heavy-bottomed beats blasting through the P.A. Charismatic and unpredictable, NUX, DT, and SINic have the ability to captivate anyone in the room with their powerful sounds and intriguing stage imagery. From one show to the next, you'll never know what to expect. MDM is not your traditional everyday band; they are modern and spontaneous with a great love for what they do. They always give a night to remember and leave you begging for more!!! Spending the last eight years and five albums in the making, MDM has matured into a style that they can truly call their own. Heavy and aggressive, yet groovy and danceable, their brand of electronic music will slam you in the face and crush your ribcage all the while keeping your ass moving on the dance floor!!!
