Details: All Creation Bows Down is the latest release by musician Philip Drake. Contemporary and inspirational in style, this album is a fresh look at the timeless hymns written by many famous authors around the world throughout the course of time. Philip grew up playing the piano like many children do as their parents push them along, but after a few years of frustration, he quit to pursue other interests. In high school, he decided to pursue the music that he felt in his heart and mind and began writing his own compositions. Even if you are not a listener of hymns, you will still enjoy the contemporary and inspirational style that Philip delivers in his music.
