This rock bands sound is comprised of four part harmonies, jangling guitars, a high paced backbeat, and conversational lyrics. The bands influences are rooted in the sunny 60s. The vocal influence of The Beach Boys, the melodic influence of The Beatles, the intimate lyrics of The Kinks, and the power of The Who all play an important role in putting together this bands songs. Currently the band is playing shows all over the east coast and southeast. In April, the band plans of releasing an EP with a few songs that best showcase the live show. Once the recording has hit the streets, the band will hit the road in a tour to support the music. The current plan is to play this music till the road ends or their hearing is all but lost whichever comes first. Prabir - guitar/vocals Chris - guitar/vocals Adam - bass/vocals Shawn - drums/vocals
