Cruisey Electro/World grooves with enchanting vocals 13 MP3 Songs WORLD: World Fusion, ELECTRONIC: Pop Crossover Details: Hi we are Craig Jolene from Sparse, Queensland Australia. We formed around 4 years ago. We have written, produced, engineered and mixed this whole album in our home studio. It is of excellent sound quality, professionally mastered and not retailed anywhere except at our live performances. Our live shows were always at clubs before the dj's come on , but since our daughter was born we have moved more into the market and festival scene. It was really hard to choose a genre for our music, We would say that it's cruisey electro/tribal grooves with enchanting vocals but not straying too far from traditional song structures. We use a Yamaha rs7000, lots of plug-ins from various sources,create our own samples use live instruments like the Turkish oud, 12 string guitar, african Egyptian percussion and keyboards.
