Its incredible how you wrote all of those songs by yourselves, you're all extremely talented. Your beautiful harmonies along with the instruments sound tremendous. In a world where God is not usually part of man's life, it is so terrific to see young people like you praising God so confidently and maturely through your music. Thank you all so much for keeping bluegrass gospel music alive in the way you do and for giving it that unique sound which I feel so blessed to hear! Your CD is fantastic; a real good example of a close knit bluegrass gospel group - many thanks once again." -ML from England "Hi girls!
