Preface. Part One: Epistemology. Part One: Epistemology. 1 Research on ultra-dilutions and the Theory of Corporeal Signifiers: the follow up; Leoni Villano Bonamin, Agnes Lagache, Madeleine Bastide (in memoriam). Part two: Basic Research Physics. 2 Theoretical and physical-chemical models for potentized systems: validation criteria; Carlos Renato Zacharias. 3. Mechanical versus handmade succussions: a physical chemistry comparison; Carla Holandino, Felipe Dias Leal, Bianca de Oliveira Barcellos, Maria Augusta Campos, Raza Oliveira, Vencio Feo da Veiga, Sheila Garcia, Carlos Renato Zacharia. 4. Water and high dilutions phenomenology: electrical characterization; Adriana Ramos de Miranda. Part three: Basic Research - Biology 5. Non-linearity modeling of ultra-dilutions: the histamine disturbances case; Guadalupe Ruiz-Vega, Gabino Estevez-Delgado. 6 Hepatic cell growth models for the study of ultra high dilutions; Ktia Silva Martinho, Vanessa Del Bianco de Bento, Graziella Ulbricht Benvenga, Viviane Aparecida Marcondes, Leoni Villano Bonamin. 7 Models with plants, microorganisms and viruses for basic research in homeopathy; Lucietta Betti, Grazia Trebbi, Daniele Nani, Vera Majewsky, Claudia Scherr, Tim Jger, Stephan Baumgartner. 8 Arnica montana and behavior of connective tissue; Leoni Villano Bonamin. 9 How living organisms detect very low doses? A new approach to homeopathy and hormesis; Elzbieta Malarczyk. 10 The effect of homeopathically prepared Thyroxin (10-30 parts by weight) on highland frogs: influence of electromagnetic fields; Sabrina Weber, Peter Christian Endler, Sonja U Welles, Erika Suanjak-Traidl, Waltraud Scherer-Pongratz, Michael Frass, Heinz Spranger, Gerhard Peithner, Harald Lothaller. Part four: Clinical Research 11. Clinical verification of homeopathic symptoms: experience and statistics; Lex Rutten, Michel van Wassenhoven. Part five: Veterinary Research and Practice. 12 Homeopathic Veterinary Clinical Protocol; Luiz Figueira Pinto. Epilogue. 13 Some reflections about the interest of non-conventional medicine in public health, especially homeopathy; Catherine Gaucher. EAN/ISBN : 9781402085352 Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Bonamin, Leoni Villano
