If someone asked me to name one miracle that exists on this earth, I would say the miracle of bringing a life onto this earth. I did not know how beautiful it was till I saw my own sister go through the entire process of pregnancy and giving birth to this angel that brought happiness to our lives. Being a parent is the hardest thing to do in this world and I congratulate you on being one. In this hard but wonderful journey of raising a baby we could do with all the help we could get. One reason why I decided to write a book on this topic is that seeing how important it is to take care of small details when you have a new born in your laps, I thought a book like this would really help parents with small problems that may arise with the baby.
