Salute to Brian Wilson. 15 MP3 Songs POP: California Pop, ROCK: Surf Rock Details: Brian Gari has been in the music business for over 30 years. He got his first song published at 15 at Kama Sutra Music and had his first song recorded at 17. His songs have been recorded by artists such as Lesley Gore and the Tokens and he has worked with Jan and Dean, Ronny the Daytonas, Petula Clark, Lou Christie, Ronnie Spector, John Phillips and many more. He has several albums out of his own Jimmy Webb/Rupert Holmes type songs, but BRIAN SINGS WILSON is his first dedicated to only Brian Wilson. His love for Brian's music has been evident in his articles throughout the years as well as a rare recording for a Japanese label of MY BUDDY SEAT. The unusual songs on BRIAN SINGS WILSON have been painstakingly reconstructed from Brian Wilson's original ideas and arrangements. Hal Blaine, Van Dyke Parks and Tony Asher have all raved about the album. This includes the full versions of music heard on The E True Hollywood Story of the Beach Boys.
