Acoustic music with superb rhythms, melodies, and harmonies. Folk rock, folk pop. 5 star listener reviews. 8 MP3 Songs ROCK: Folk Rock, FOLK: Folk Pop Details: Cool Waters. A spirited, acoustic album. Essentially a live album, the rhythm guitar, drums, bass, and vocals were recorded at once in a lively jam session. Only harmonies and lead guitar were added afterward. Recorded at Knuffknick Studios in the middle of winter, fingers were freezing, but the music came out sounding warm and earthy. This is still a favorite. For best results, you should be driving on the road to the outdoors. About the Artist: Craig Enger has written and composed more than 200 songs. Primarily a self-taught guitarist, he studied classical guitar briefly, and later with fingerstyle virtuoso Duck Baker. His focus though has always been original songwriting, with acoustic rhythms, sweet harmonies, and something to say.
