

Mp3 Faint Reality - Done With You

[DOWNLOAD HERE](#)

Soft water meets electricity. Collaboration of an alternative Jewel like vocalist, with a heavier metal/electronic "producer". 11 MP3 Songs POP: Today's Top 40, POP: with Electronic Production

Details: Faint Reality is a brand new duo from the Hickory, NC area. The duo consists of Chris Kilburn (vocals lyrics) and Trey Canipe (music and production). Their music available for TV, film, etc - and Trey's archive is not limited to this particular style. Trey comes from a long background of songwriting in many styles. Trey has played in several local bands and he has released his own projects that have been featured on local radio shows. Trey has also been featured in an indie film and is pursuing an instrumental project for commercials/TV/film. Chris is working to further her singing career. The CD was produced in Trey's digital home studio using various MIDI programmed devices and real guitar/bass. It features Chris' alternative Jewel like vocal style. Trey contributes mood setting rhythm patterns and progressive (signature) sounding guitar parts. This CD is a collaboration of Chris's bright conventional style and Trey's more dark and hard hitting (industrial/metal) style. Even though this project was done on a small home studio - it is a very "thick" and dynamic sounding project.
