Jimmy believes the sound is unique and fresh and is testament to his life which has been influenced from his travels around the world and back. His first independent release was an album entitled, "Shades of Grey", which was released in March of 2007. The album was written, recorded and produced by Jimmy Kane in the facilities at the Musician's Institute in Hollywood, CA. The album helped him to gain a fan base in Los Angeles, and caught the attention of OMC Records, who signed Jimmy in January 2008. After signing with OMC Records, he began recording a 12 song LP album entitled, "A Constant State of Motion". And now, with a full band behind him, the main goal is to keep raising the musical bar and continue to promote his music through touring all over the USA and Europe.
