

Mp3 Leo Unger - Faces

[DOWNLOAD HERE](#)

Pop music influenced by everything that ever hit my ears, ranging from blues and jazz to reggae, with everything imaginable in between. 11 MP3 Songs POP: Pop, POP: Folkly Pop Show all album songs: Faces Songs Details: I'm from Holland and I've been in the music business nearly all my life. starting out with jazz and blues on clarinet and saxophones, I soon focused on the instrument I really love: the guitar and on singing and writing. My life never was a straight line (whose is?) and after a lot of gigs, jobs and some singles, I had a hit in 1974 with a number called Run to the sunshine. Not so much later family life became very important so I took up a steady job as a teacher at the music school of The Hague. After the kids left home, I picked up playing and singing again, and writing, I simply can't stop. My music is very divers: anything that ever hit my ears, left its traces and in time finds its way out in a song. But I'm very happy if something pops up that you can't put a sticker on. Faces became reality with the help of some good friends. Their faces too, you'll find in the booklet. One day a friend (she's a really serious music lover) asked how the project was going on. Great I said, but I need three singing sisters for the background vocals. Then you should try my daughters she replied. I did and they are great! Listen to them - and to the rest of course, which isn't bad either. Enjoy! Leo Unger Tags: pop
