Urban reality and experience put to music; provocative and true to life hip hop. 13 MP3 Songs HIP HOP/RAP: East Coast, HIP HOP/RAP: West Coast Rap Details: A fine young man born in Philadelphia, attended high school, and played basketball as a point guard. He began rapping at a very young age talking about his experience in a large urban city and his upbringing in a public housing project. He talked about city life, and his early experiences made him more determined to do better for himself and to help improve his environment as best as he could. He then moved to Akron, Ohio with his parents and attended Kent State university. His love for music continued to haunt him and friends suggested he put his lyrical talent to use. He then wrote, produced, and co-produced more than twenty tracks then signed a publishing deal and finally his music got licensed to an independent record label CHIOMA RECORDS in Akron, Ohio, run by a dynamic young physician/surgeon Charles C. Njoku, M.D. The album LIFE SKILLZ is a wonderful Godly work, true to its meaning. The lyrics, even though explicit in some tracks, hold true meaning to life. The music will appease the best music mind and will be joyful to any true music lover. So buy my music, recommend a friend, family, or foe to buy one too, and in so doing you are helping the people of the world.
