Reviewed by Thomas Kress Customer Reviews Untapped Power, Ocotober 6th 2008 By Alison (NSW, Australia) This pure music made from the silica crystal bowls is masterfully played by Mamia and is a unique composition. When I listen to it I feel it reverberating through my physical and energetic body which continues on long after the music has finished playing. The sound of this crystal music seems to transport me back to a time so long ago where vague memories caress my being. I highly recommend this high quality recording to anyone who is interested in experiencing the largely untapped power that music has on our being. Amazing Skill, Ocotober 7th 2008 By Penny Chesney, (Globalight, NSW, Australia) I have recently discovered Mamia Katos amazing crystal bowl CD entitled Sound of Gaia. I was immediately impressed, not only by the skill sound quality of the performance, but also the deeply relaxing effect that this music generates. As a Teaching Master of Reiki, Seichim and Karuna Ki, I have

since used Sound of Gaia during teaching seminars and find it a perfect accompaniment for the attunement process. It allows both the Master and the Candidate to maintain a higher state of spiritual awareness during the ritual with ease. This music is a very useful tool for the Teaching Master of any modality as well as the student who is dedicated to their spiritual journey. I commend Mamia as a talented composer and musician.
