Discovering the saxophone as a child put music at the forefront of Marks life. This new found enthusiasm evoked both emotion and inspiration, and progressed into actual songwriting in the 1990s. The songwriting became the poetic lure that breathed life into his music. Marks gift with the saxophone rouses great passion, but the real power is in his writing. He recently completed his debut CD, Lookin At Tomorrow. The title is derived from the song Youll See the Sun Again. This song illustrates the concept of keeping a positive attitude following a bad relationship. The Parkin Lot Hang, a funky horn-driven song is about his carefree days in high school. The album also

offers a couple of rock selections in, Your Days Comin, and Dont Ever Stop Now. Baby Dont You Get It and Take Me Away will take you away with smooth R B rhythms, and both allude to lovin the one youre with. Mark received a B.A. in Music Performance from WV Wesleyan University, and then relocated to Boston to pursue the dream. There he attended the renowned Berklee School of Music. After college Mark played with a popular cover band called Search Party, covering Paul Simon, Buster Poindexter, The Neville Brothers and UB40. The band also showcased as contestants on the hit TV show, "Star Search, and released a CD entitled Days of Magic. In the early '90s Mark played sax and keys for a phenomenal Boston band called Eye2Eye, where he wrote several songs for their second and third CDs. The band took home Best R&B Band at the Boston Music Awards for three consecutive years! The group traveled to Europe, L.A. and New England, playing in numerous large halls and venues. In 2001, Mark moved from Boston to Phoenix, and met Emilio Castillo, the leader of the legendary soul band Tower of Power. They have been great friends and songwriting buddies ever since. In addition to co-writing songs that may end up on Tower of Powers upcoming CD, Emilio contributed a great deal to the songs for Marks CD Lookin At Tomorrow. T.O.P. has always blown him away, so it was a real treat for Mark to include some of Towers band members on his first CD, and he is more than thrilled with the final results.
