crude unusual sample muzak 10 MP3 Songs ELECTRONIC: Down Tempo, EASY LISTENING: Lounge
Details: For you who dine by candlelight and toast your conversation with champagne... here is your disc... hauntingly unusual melodies played with a crude fervor accompanied by some of the most primitive and irresistible sampleology to emanate from an mpc this century. The listening connoisseur will detect the consummate skill of the highly trained loser/producer Max Courvoisier. Monsieur Courvoisier has released three albums to date, this being the first to be made available on both vinyl LP and industry standard, cheaply burned cd. At the completion of this release, the hermitic beat monger finds himself leaving his small cave in Texas for destinations: Berkeley, Buenos Aires and beyond!
