This indy artist is as good or better than most of the hat acts out there on the majors today. It is not very often that I get a CD and like all the songs on it, so for me Mike's new disc was a rare find. All 12 tracks on this project are simply just great tunes. No fillers here. And to top it off, all the songs were co-written by Mike. You should buy this CD especially if you're a fan of great country music." Eddie Groves CountryMusicMusician.com Mike's Story: Mike is making his mark on the Country music scene with this debut release. He has been writing songs in Nashville the past 10 to 12 years and now all the hard work is beginning to pay off. Mike's songs have been getting some healthy spins on traditional and internet radio stations in the U.S. and throughout Europe - and his fan base is growing fast! Mike believes; "We've all been given talents and been blessed with ideas; and when we share them with others we keep the world turning and dreams coming true." Mike started out strictly as a writer but now is passionately pursuing his artist ambitions after getting encouragement from friends inside and outside of the industry. It is a dream many others are believing in as well! Mike was raised in Petaluma, California and now lives with his family in Sonoma. He spends, however, over 4 months out of the year in his Nashville home Orlando, writing and performing with his buddies in the South East coast. Mike, has written with hit songwriters as well as talented new writers and has learned "a great song can come from anyone and anywhere; it just depends when God wants to give it to you." This year seems to be the beginning of a lot

of good things in Mike's career. His talented publishing company, Southern Angel Music, is taking off. Several of their songs are being recorded by other artists and are also starting to get songs placed in film and that's music to Mike's ears! Mike says "keep the faith" and thanks for you coming by! Enjoy the songs, The Southern Angel Music Team
