Put on your old Bass Weejuns or your old Mary Janes and step out on the floor Shaggin' to the Corvairs' new Beach Music album "We Of The Beach". "We Of The Beach" chronicles the saga of Timmy, Judy and Timmy's brother Jimmy, three teenagers whose lives are forever changed by the cold touch of the reality of mortality! Timmy's untimely demise leaves Judy totally shaken and unsure of tomorrow and Jimmy in the mental ward with no clear path of escape. We have all known friends, love ones and acquaintances who didn't make it to full adulthood. Their early departure has left us with the hard lessons of life and their memories. For all of us who remain and who to journey to the beach to find the fellowship and solace we have grown to love over the years, "We Of The Beach" is a reminder that even though the loss of our friends left us with pain, we would do it all over again, and we'd walk hand in hand to that promised land "Of The Beach"! *** The Corvairs are Funk, Soul, Beach and Disco Band dedicated to the time period when the Corvair was in its prime! The Corvairs bring back all of your favorite dance tunes from the 50s, 60s, 70s (with a couple of new ones that are too good not to cover). The Corvairs will keep you dancing all nite long and reminiscing about the first time you heard that tune. Perfect for all of your partys musical needs whether a private or public affair!
