Audio fruit from an orchard sharing soil with The Beatles, Crowded House and Simon Garfunkel, these are classic, guitar powered, harmony-fueled songs of life and love, melancholy and optimistic. 10 MP3 Songs POP: British Pop, POP: Dream Pop Details: From the first song, Home lifts you out of your armchair and flies you over a terrain filled with memorable melodies. Optimistic songs like "One Day" and "Chasing a Rainbow" share the land with out-and-out catchy pop blinders "She's Got to Know Why" and "When I'm With You". "Breathe", a 60's inspired classic, the lilting "I Never Meant to Let You Down" and sarcastic bar-room stomp "Hey Daydreamer" - all recorded by Grammy winning Coldplay producer Ken Nelson - lead you to the gorgeously simple "You I". The journey is complete when you arrive at "A House by the River". HOME is a luscious, quirky, classically-written pop album which should be in your collection. Go on, treat yourself.
