Modern Folk 10 MP3 Songs FOLK: Modern Folk, COUNTRY: Western Details: Tony Maiken...like an old cowboywandering west of the modern world. Tony started playing his new Martin in 1963 and it didn't take long for him to pester his closest friends with his original tunes. Many bands and many late nights in the clubs gave way in the 1980's to a succession of real jobs and undercover song writing that took him right into the Millennium. Then the fun began - he began entertaining again with his own brand of Cowboy tunes- watering the cactus and throwing caution to the wind . Listen, and you will find yourself tumbling into another place and time. Here he is with a sound like Roger Miller, a bit of Gene Autry and a guitar like Ry Cooder... still having fun!
