Beatles-pop, KIDS/FAMILY: Kid Friendly Show all album songs: Calling Out Songs Details: Calling to all the boys and girls. Lets change the world. Hi Everyone, Im Zaidees Daddyyes there really is a Zaidee.

She is my daughter. A tween right now, but someday a real teenager. But we can wait. I write all the songs, play all the instruments, arrange and produce them too, at home. And sometimes Zaidee and her mom (my wife Heidi) sing on them. The inspiration comes from everywhere. A lot are about my daughter and our relationship and also what she goes through as a kid. Sometimes it isnt easy being a kid--or a parent! But we always do love each other. You know what, Ill bet we have a lot in common with kids and parents everywhere. Listen to the songs and find what means something to you. Then write to us. Love, Peace Parenting. Zaidees Daddy
