Whether it's beautiful twinkling lights placed strategically around the house or electric candles sitting in the window, Christmas decorations add warmth and charm to our home during the holiday season. This year, there are three popular items to use for decoration that will surely add to the holiday spirit around your home. The metal snowman garden statue is a whimsical and fun Christmas dcor item that really looks cute in any yard or garden. The snowman has a little gardener's apron on, mittens, a scarf, and a hat. He's a super cute Christmas decoration that will really help your home to stand out this year. A cute 3D door flag decoration is also a great piece of dcor this year. The 3D door flag looks like colorful wrapping paper and makes the front door of your home look like a real present. The bow is 3d, so it stands out and really gives your home a warm and inviting look. The best thing about the 3D Christmas door flag is that it's easy to install and remove, with just two little hooks to hang it up. It's made of polyester and can be reused from year to year. The goose wind spiral Christmas decoration is an adorable accent for your front or back porch, or you can hang him inside your home. This cute windsock is in the shape of a goose with an adorable Santa suit on. Underneath of him is a green spiral with holly, and he twirls and whirls in the wind. This is a lovely Christmas decoration for the holidays, and it appeals to almost everyone. You'll love the Christmas goose wind spiral, and he will be a fun companion who'll bring you lots of holiday cheer. ----------xxxxxxxxxxxxxxxxxxx---------- Plus You Get A Bonus Minisite Graphics Pack, with Private Label Rights! Here are the Contents of the Graphics Pack: - 2 Minisite Headers: One with Text and One Blank (PSD Files Available) -1 Matching Minisite Footer (PSD Files Available) -3 Blank Banners (PSD Files Available) -1 Matching Order Button (PSD Files Available) -Cool Christmas Fonts -1 Minisite Template: This Template is COMPLETELY CSS-Based, Which Means You Can Edit It Using ANY HTML Editor! "But How is Your Template Any Different from the Hundreds of Minisite Templates That Are Gathering Dust on My Hard Drive?" You have no doubt purchased dozens of minisite templates before. However, here is where my template differs from the rest: You DO NOT need Photoshop to edit this template. I hate the idea of anyone having to invest $600+ in Photoshop just to edit some templates. Come on, we are not trying to be graphics pros

here! That is why I have made it as easy as possible for you to edit the template without investing an arm and a leg in any image editing software. This template is completely CSS-based, so you can use just about any HTML or text editor to edit it (I however recommend you use a CSS editor like Dreamweaver, TopStyle or Style Master to save time). You can change colors, fonts, anything you like, and use the same template on as many sites you wish! You don't need to learn CSS to use this template; however a little bit of HTML knowledge would come in handy. *Special note: The bonus template contains some editable PSD files in addition to CSS style sheets. However I personally feel you dont need to edit the PSD file unless you want to have a complete overhaul of the template!
