I'm About To Give You The Ability to Do Two Things: 1. Earn Your First \$100 Online, Then Repeat The Process As Many Times As You Wish 2. Change Your Life! Dear Potential Internet Marketer, From The Desk Of ***YOUR NAME*** Despite the title of this book, it's not about making your first \$100 online. Sure - I show you how to do that in the book, but that's not what it's really about. Let me start at the beginning... If you follow the methods in this book you'll make your first \$100 online. The techniques and processes I explain will feel weird and alien the first time you do them. You'll get some things wrong and have to start again and all in all it'll be a steep learning curve. Stick with it and you'll see the profits come in. There's more to it than that though. If you see this method through to the end that is until you're actually banking money that YOU have made online, then I promise you your life will change. You'll see the potential of the internet and a huge feeling of pride will swell up inside you because YOU have taken nothing but an idea from this book and turned it into cold hard cash. That puts you in the 5% of people who actually do something with information - no mean feat in itself. But I said there were more rewards than your first \$100, and there are. Once you realize for yourself that this method works (and I can tell you it does a million times but you won't really believe me until you've done it for yourself) then you can replicate the system as many times as you like and turn that \$100 into \$1,000 or \$100,000 You can quit your job, go full time on the internet or whatever you want. It'll free you from someone else (i.e. your employer) deciding what you're worth and put control of your own earning power firmly back in your own hands. That's a rare thing in today's world. It's about changing your life, becoming your own person and taking back control. You do this and you'll never ever look back. Quite honestly if you wouldn't be able to go back to a full-time job even if you wanted to because your mind, your potential, your vision of what earnings you can achieve will have been stretched and they'll never ever return to their old limits. You'll be a new person. On a practical level too, this book will take you through exactly what you need to do to start earning money online, without the need for your own product or any experience of online marketing whatsoever. From the basic first steps, right through to expert level 'tweaks' which will optimize and increase your profits and put your earning on autopilot. Even better, I'm going to give you the skills you need to repeat the process

over and over again, as many times as you wish and effectively remove all limits from your earning potential. I'll show you: Where to go to find products to profit from even if you've never sold a single thing online before Step by step instructions and details of how to avoid the traps that many new marketers fall into How to make sure you find the right products to profit from and the tricks the professionals use to spot the best products How to profit from other people's products How to get buyers to give you money without even realizing you're selling anything How to profit from other products that are in competition with your own and much more...
