The melodies and lyrics are brilliantly scripted from a identify of deep authenticity. Ahria's vocalize wraps you in a warm, smooth blanket of sound and later lifts you on currents of sweet and clear tones. Her songs are guaranteed to touch identifys in you that you may not have known were reachable. Ahria is a precious being who shares her inner world with us through her music. If you met her, you would find her sweet, attentive, caring and beautiful from the inside out. Ahria's music is true expression. She is not about teaching or preaching. In her own words, "I have nothing new to teach anyone; it's all been said throughout the ages in a million ways. What I do have is a yearning to express what's bubbling up from my soul, in all of its beauty and pain. My songs are how I talk to God, or to myself, or to someone else... it's all the same. My music does carry a message, but it's not one of my choosing. It's one of the listener's interpretation. It's not my job to teach anything. It's my job to express myself as authentically as possible. It is my hope that by doing so, I am used as a channel for Spirit to touch the lives of others on this journey with me. When I offer a song, it's my way of extending my hand and saying 'here, come walk with me a while.' When you listen, you take my hand and we walk together in spirit."
