An awesome new interpretation on all of our favorite classics. Allan Spencer has selected classical piano repertoire (plus some extras) and arranged it for Marimba Choir. Prepare yourself for the soul-resonating rosewood gifts of the marimba. 13 MP3 Songs CLASSICAL: Traditional, JAZZ: Dixieland Details: Allan Spencer has constructed fine arrangements of the Classics we all love, successfully preserving the overall feel of the pieces while taking advantage of the full range that the marimba quartet has to offer. Underlying these arrangements is an energy level that carries throughout the pieces without rolling over the phrasing. He has also included two original pieces that were written to touch the heart and comfort the soul. Players of this arrangement have a chance to show off their consistency in technique. With ensemble rolls, powerful dynamic variation, and a melody line moving between parts, these arrangements allow the performers to shine both as individual and ensemble players. These arrangements also highlight the special attention shown to activity in the lower and middle octaves to avoid overpowering overtones.
