If you love Angels and Airwaves, you'll dig Bunker Soldier! Bunker Soldier, an underground electronic music pioneer since 1994, releases his first full length cd since 1999. "The Debris Field" takes his music in a new direction as this cd is the result of 6 months of hard work at the Panhandle House Studios in Denton, Texas with producer Erik Herbst. Erik produced Bunker's EP "Triple Threat." That cd received rave reviews for its' production. "The Debris Field" is a magical audioscape and is flawless in its' production, also. Each song will grab you in with a hook and leave you eagerly anticipating with what's next around the corner. Elements of U2, Coldplay, Moby, Paul Van Dyk and of course, OMD, are found throughout the songs. Bunker Soldier is well known for his hard hitting industrial dancefloor anthems. This cd tends to walk the fine line between synthpop and powerpop. He has never hesitated mixing styles or musical genres since 1996 when he dabbled in hip hop and techno. "The Debris Field" is his best work to date, showcasing his ability to write catchy songs and showing that he is about to break through the underground once and for all.
