Emerging from the diffuse and eclectic music scenes of North Carolina and Virginia, Dynamite D continued to gain exposure throughout the East Coast, sharing his sound in Baltimore, Atlanta, Knoxville, and finally settling in Denver, where he established himself as a major figure in the local nightlife. His quick adaptation and growth among the LoDo revelry rapidly confirmed his placement among the Denver icons. By integrating the sounds of drum and bass rhythms with hip hop, poetry, and movie culture, Dynamite D creates an exclusive sound that has become his trademark. The sundry of noises merge with the silence to produce a striking and widely received collection of music which the area epileptics describe as intense like a flashing strobe, and energetic like a ravenous raccoon caught in a dumpster full of hornets; this stuff is definitely socially unacceptable. This unique array of D&B tracks range from banging anthems to ever smooth, rolling bass lines that blow your mind.
