If you like some traditional rhythm and blues or Rockin Pop check it out. 10 MP3 Songs BLUES: Rockin' Blues, ROCK: Rockabilly Details: 331...has finally arrived. I think you'll find John's newest release is him at his best! It features John... The songwriter...the cool clear voice...multi instrumentalist...I'd say, in that order. The same diverse theme is present in the album's material, and it all leads to one conclusion...Good Music! Music is a serious thing, and John is serious about the music he writes and plays, but I promise you'll have a great time listening to this album. There's some "sweet soul," plenty of "hard knocks and dirty socks!" a lot of "feel good." I can't be too objective but, a couple of my favorites are "I Get It From You," it's drippin' with raw blues energy! "What About Love," is a tapestry, "Failure to Communicate...a cool "goodtimes" shuffle...I'll leave it there and let you discover the rest. There are just a few places you find a band like the "331" band. Nashville is one of those places, the music is "as good as it gets! It was a pleasure to be in the ranks with John and these guys. It took awhile...life was going on all around us as we pieced together the layers and "constructed the beast..." but the absolute "good vibe" prevailed. So...congrats John on the new CD...and thanks for having me along! Bobby Brewer, guitarist/co-producer "331"
